PROFESSIONAL SUMMARY

Full-stack software engineer and Computer Science graduate student at the University of Winnipeg with a proven track record of designing, building, and shipping production-grade web systems end-to-end. Proficient in JavaScript, TypeScript, and Python, with hands-on experience across React, Node.js, CI/CD pipelines, cloud-native architectures, and API integrations. Adept at owning the full delivery lifecycle from design through deployment, with a focus on scalability, reliability, and measurable impact.

EDUCATION

University of Winnipeg <i>MSc in Applied Computer Science & Society</i>	Canada Jan 2026 - Present
Redeemer's University <i>Bsc in Computer Science</i>	Nigeria Nov 2020 - Oct 2024

EXPERIENCE

Lead Software Engineer <i>BlockTrace</i>	Nov 2025 - Present Remote
--	------------------------------

- Architected and deployed a full-stack blockchain analytics platform from zero to production, serving real-time transaction visualization across 4+ chains (Solana, Ethereum, Polygon, Cardano)
- Integrated Stripe payment processing with webhook handling for subscription lifecycle management
- Built an automated email marketing system with Brevo integration, achieving **45%** open rates on transactional emails and **12%** newsletter conversion
- Established a CI/CD pipeline with automated testing, achieving a **30%** reduction in deployment time and zero-downtime releases

Donor Care Representative (Seasonal) <i>Siloam Mission</i>	Oct 2023 – Feb 2026 Canada
--	-------------------------------

- Managed high volumes of donor inquiries during peak fundraising campaigns
- Resolved **50+** daily calls and emails, updated member records in digital systems, and supported end-of-day reporting
- Achieved a **95%** satisfaction rating and reduced response time by **20%**

Web Developer (Internship) <i>The Breej Global Ltd</i>	Jun 2023 – Sep 2023 Nigeria
--	--------------------------------

- Developed and shipped user-facing features using React and modern component-based JavaScript frameworks
- Collaborated with senior engineers and product managers to design and implement scalable, high-performance applications
- Maintained project deliverables and schedules in coordination with cross-functional teams

Junior Developer <i>Buuka Technologies</i>	Aug 2022 – Nov 2022 Nigeria
--	--------------------------------

- Developed and deployed the v1 landing page and optimized frontend performance, achieving **60%** faster load times

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Flutter & Dart
Frameworks & Tools: React, Node.js, Git, Neon, Claude, Excel
